MEMORANDUM FOR THE FILE

25X1 SUBJECT: History Staff holdings for MISC-1, the DDP under Allen Dulles -- 8 months in 1951, [redacted]

1. This collection is about 2" thick, in fairly good copy. Several notes by the author left in the file state the condition of the history as being incomplete at the time when he (the author) evidently moved on to another venture.

2. Not all sections of the Content page for Volume I were started, (let alone finished), titles in the collection are listed below:

- I. Introduction - In The Beginning
 - A. The Coming of AWD
 - B. The "Covert Side of the House"
 - 1. Clandestinity in a Free Society
 - 2. OSO: The "Old Pros"
 - C. (there is no Section)
 - D. Scope and Pace
 - E. NSC 10/3 - Who will run covert ops in wartime?
 - F. Toward Integration (only the rough draft)

Additional sections are:

"The Doolittle Investigation"

The Clark Task Force

Annex A

"The Denigration of Stalin", "The Satellite Paper" by John Baker

3. In a 17 December 1972 note by the author it is noted... 'the section on the Doolittle & Clark investigations is done except that I want to add a few more pages on Kirkpatrick's report to the Killian Committee re what was done about the Doolittle-Clark recommendations. The section on the Denigration of Stalin is about 1/3 done. I want to cover the acquisition of [redacted] the go-around with State and the White House [redacted] and the development of the "Satellite Paper".'

25X1

4. Another note states that 'Volume I was for the Dulles period only,' making one believe that as the paper progressed, there would have been more volumes planned and written.
